

## **‘Angkasawan’ Dato’ Dr. Sheikh Muszaphar invites young minds to experience Aerospace**

TRON Boot Camp will expose participants to aerospace experiential learning in line with National Space Policy 2030

### **PRESS RELEASE FOR IMMEDIATE RELEASE**

KUALA LUMPUR, 17 OCTOBER 2023: Qreatif Lab Sdn Bhd announces the launch of TRON Boot Camp aims at young minds aged 10-17 to explore the wonders of aerospace. Parents and participants alike will be delighted to know that the boot camp is designed by STEM and Aerospace consultants, especially for young learners who are keen to understand the field of space exploration and its benefit to humankind.

TRON Boot Camp is lined up with simulation experiential learning, rocket technology, maneuvering rovers, drones, and even 3D printing. Following the completion of the program, our young learners now called TRON, will be graduated from the program with certificates at the Andromeda Base in Genting SkyWorlds.

“Nurturing young *‘angkasawan’* talents is one of the main key areas of the National Space Policy 2030. With support from STEM and Aerospace experts, TRON Boot Camp is structured to entice their young minds to further explore this field. As a parent myself, I cannot wait to be able to mentor these young minds during the intensive 3 days program”, said Dato’ Dr Sheikh Muszaphar Shukor, Founder of TRON Boot Camp.

The pilot TRON Boot Camp will be conducted in November this year while the full-fledged program will be made available in the next month. Envisioning a long-term sustainability plan for the program, Qreatif Lab is planning to make this program accessible for public and private institutions alike.

“We are envisioning a Dr. Sheikh Muszaphar Space Camp for the young minds in 2025. TRON Boot Camp is a crucial stepping stone to understanding our young space dwellers and will further improve the program for years to come. We are also eyeing to offer this to our neighboring countries like Singapore and Indonesia”, said Pn Zarina bt Mohamad, Managing Director and CEO of Qreatif Lab Sdn Bhd.

TRON Boot Camp aims to become the nation's premiere space education program that will be run throughout the calendar year starting in 2024.

## **About Qreatif Lab Sdn Bhd**

Qreative Lab Sdn. Bhd. is a company that is driven by three core business activities; Training, Education, and Event Management. Based in Kelana Jaya, Selangor, we provide end-to-end solutions, for tailored workshops, seminars, and camps online or offline. These include but are not limited to academic support, tutoring, and curriculum development. We offer event management services to individuals, educational institutions, corporate clients, and organizations. With our customer-centric approach, each event will be delivered with a commitment to quality and innovation.

Unit A-9-17, Pinnacle Kelana Jaya, Jalan SS7/26, SS7, 47301 Petaling Jaya, Selangor.

## **About the Founder of TRON Boot Camp**

### **Dato' Dr. Sheikh Muszaphar Shukor Al Masrie bin Sheikh Mustapha**

TRON Boot Camp is proudly privileged to present Dato' Dr. Sheikh Muszaphar Shukor Al Masrie Bin Sheikh Mustapha, the first Malaysian astronaut, as our founder. Dato' Dr. Muszaphar embarked aboard the Soyuz TMA-11 launched to the International Space Station on 10 October 2007. His extraordinary voyage to space symbolizes Malaysia's foray into the cosmos, marking a significant milestone for the nation's scientific advancement. His unwavering determination and resilience in the face of challenges served as a beacon of inspiration, igniting passion for space exploration among the young generation optimistically commencing with TRONS!
